

CHRISTIAN FELIPE TORRES LÓPEZ

Desktop-Web-Mobile Application Developer

CAD-CAM-BIM SPECIALTY

Programming and Control

CONSTRUCTION WORKS

42 years - 19/04/1979

Ecuador

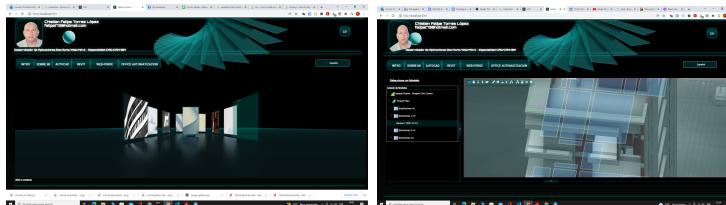

(593) 09 84794678

felipet73@hotmail.com

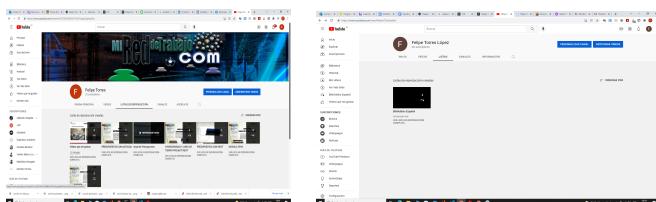

Cdla Refugio del Mar Villa
52 Playas Villamil-Ecuador

3D CV

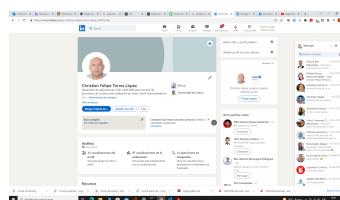

Example web page developed in React - Threejs contains videos with small examples of applications that I make an example of a plan viewer and 3D models using the Autodesk Viewer and explore models hosted in BIM360 Docs of Autodesk Construction Cloud.

YOUTUBE CHANNELS

Explanatory videos of applications that I make for project control with CAD-BIM

LINKEDIN PROFILE

Application development Desktop - Web - Mobile

Experience in programming languages: C / C ++, Pascal, Cobol, Fortran, VB 6.0 .NET C #

Fox, Python, VBA-C # APIs with MSProject, Excel, Autocad, Revit

Web with HTML-CSS-PHP, Javascript, Tapescript. React Node, REST APIs, Bootstrap, Oauth2, Socialite, POO, MVC, JQuery, Vue, Socket io, JSON, Chatbots

Real Time - Frontend, BD backend. Sql Server, MySql, MongoDB non-relational
Laravel, Angular mobile: android studio - kotlin

RPA process automation with UiPath

I adapt very quickly to any programming language.

Scheduling and Control of Works - Contractual Compliance (LOSNCP)

Budgets (OPUS, InterPro, Proexcel, Presto) -APUS - Tenders (SERCOP)

Sheets (preparation / review) - Cost + Percentage - Additional items - Evaluations

Price Adjustment Formulas - Schedules (Project, Spring)

Planning and monitoring of input consumption (Cost)

Drawings (Auto CAD - Civil 3D- Micro station - Revit - Civil 3D) - ArcGis

Automation of tasks (programming languages-databases)

I never speculate on issues of relevance.

I measure the risk before issuing a result where there is a possibility of inconsistency. I believe that a criterion can always be modified.

If I don't have something positive to say, I prefer not to say anything.

I never compete against others, I am not interested.

I'm not interested in winning or losing, being better or worse, I don't waste time on relative issues. I never trade with my ideals.

I believe that always aiming for excellence leads to a fairly adequate result. I believe in constant learning.

I believe in enhancing skills.

I believe that if it is not possible for me to help, at least if it is possible for me to avoid doing wrong. I think that what you don't know today, you can know tomorrow.

I am one of the people who understand that reading, studying and analyzing the same item give three totally different results.

All my decisions are based on convictions, which is not always in my favor, but I will always persist in it, because I am sure it is the right thing to do.

SYNTHESIS PROFESSIONAL EXPERIENCE

I started giving programming advice to university students, approximately 7 years.

I worked 12 years in various construction projects around all of Ecuador in areas related to project scheduling and control, during all this time I always looked for a way to carry out processes efficiently, through the development of applications that achieve results in extensive tasks such as automation of the drawing of cross sections and calculation of excavation and filling volumes of several kilometers of roads in a very short time. For 3 years I have intensified in the automation of technical-administrative processes for control of construction projects through the development of applications that automate processes, manage and distribute information, finally a door opened for me about a year ago to work in the development of the tool that manages budgets from a BIM model.

SPECIFIC KNOWLEDGE BIM

Currently I am specializing in Programming applied to BIM, I know well Autocad, Revit, Navisworks, BIM 360

I am learning Blender and SolidWorks to delve into CAM. I automate several tasks in these environments interacting between applications: Open models with the Viewer viewer, send and receive information through APIs in Revit, Autocad, Excel, Word, MSProject, Winforms, etc.

- * Python development with Dynamo
- * Grasshopper development in Rhino

- * Development in C # API of Autocad (ArcObjects) Winforms
- * Development in C # API of Revit WPF XAML and Forms

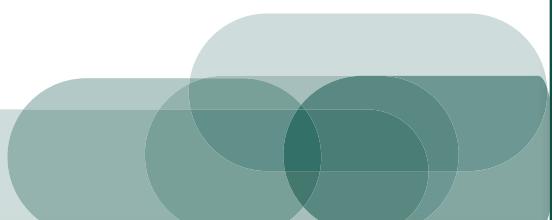

* Development in C # in excel, word and MSProject, importing 3D models, plans of autocad and interacting through Web Forms with Forge

- * Development with Forge APIs (C # with ASP.Net, React, native Javascript)

Authentication, access and interaction with the Autodesk ACC Cloud, loading of models with the viewer

* Development with JS React, React Native, WEBGL with Canvas, threejs, react-three-fiber.

* I am following up on the IFCjs library, I think it could have a lot of future, however Forge's potential is much higher at the moment.

Work Experience Summary

SISTEMAS 10 SAC PERU

BIM Specialist Developer

Jun 2020-Act
2022
2021

Development of an application with a function similar to Presto's Cost-It, it is not possible for me to detail or reveal specific details of the operation of the applications developed.

2010

Activities

- Development of AddIn in Revit and a Web in React with Autodesk Forge for:
- Analysis of unitary prices
- Entry of work quantities
- Automatic quantification linking the elements of the model with (Associating Family -Type and properties) to the detail of quantities
- Control of Models in BIM360, upload models.
- Maintenance of Budgets, items, catalogs, etc.
- Connection to databases through SSigallIR
- Associate 3D models to each Sub-budget, automation of the measurement detail.

- Prepare billing forms
- Analysis of prices and budgets for offers
- Budget of works to be carried out
- Control and payroll to subcontractors
- Quantification of material to be used

Prepare billing forms

- Quantification and requirement of materials
- Preparation of profitability analysis in the acquisition of supplies
- Draft response to contractor trades
- Administration and implementation of modules in the document control system
- Verification of compliance with contractual clauses (term - cost) price analysis - resources

Evaluation and monitoring of work schedules

- Compilation of information, assembly of monthly reports, progress tables and evaluations
- Review and approval of reports and forms of contractors

Physical progress control, work scheduling

- Worksheets
- RDO (Daily work report)
- As-built plans and design modifications
- Reports of justifications for changes or delays

Physical progress control, work scheduling

- Review and approval of worksheets
- Monthly progress reports and compliance evaluations
- Various reports
- Compliance with contractual clauses, specifications
- Evaluation of work quantities

2007

- Everything related to the control of construction contracts, in the contractual fields - legal, progress, control of contractors, monitoring of progress, evaluation of non-compliance with the schedule, use of resources .. approval of billing forms

- Contractual monitoring of works, coordination with inspectors.

- Prepare liquidation of works
- Carry out measurements, work progress calculations, collection sheets
- Study plans for new roads
- Update As-built construction plans
- Monitoring of work progress, schedules, use of resources

- Carry out measurements, work progress calculations, collection sheets

- Study plans for new roads
- Update As-built construction plans
- Monitoring of work progress, schedules, use of resources, etc.

- Make the works progress sheets for collection
- Implement procedures that speed up the payroll process
- Coordinate data transmission with topography
- Make the plans in Autocad of road studies
- Calculations and annexes of work quantities, tables and explanatory plans

Education:

Master in BIM application development

STRUCTURALIA

I have more than 472 courses on
Udemy I really like to learn, I am
always studying.

Languages:

ingles basic to intermediate, currently studying intensively.

DESCRIPTION OF MAIN KNOWLEDGE

PMP AND AGILES PROJECT MANAGEMENT METHODOLOGIES

I know the PMI of the PMI quite well, the procedures and functions of both the Project manager, the Scrum Master and the scrum team, Jira Agile, fundamentals of ITIL 4, theoretical knowledge of Kanban, I am interested in everything related to project control, methodologies, work in team, processes and information management.

ANALYTICS AND DATA MINING

I know the fundamentals of business analytics, data analytics and data science, practical cases with languages such as python, function libraries and statistical graphics, I am deepening the subject with R and power Bi, web scraping with R (obtain information from content such as news, comments, collect data from WhatsApp), sentiment analysis, statistical data, information management with standards such as JSON, XML, csv various SQL databases, non-relational such as mongoDB, Web scraping with python and UiPath, automation of processes with RPA, among various other related topics, chatbots, etc.

DESKTOP - WEB - MOBILE PROGRAMMING LANGUAGES

I know several IDES and programming languages:

PC: for more than 20 years C / C ++, Pascal, Python, cobol - GT, Fox, Visual FOX, C, Fortran, VB 6.0 .NET, C # Linux Shell, applications in graphical environment Gnome with GTK and GDK using C ++, lisp, APIS VB / VBA or C # with project, excel, autocad, Revit, dynamo with Python in Revit

WEB: HTML - CSS styles - Bootstrap - VUE, CSS timeline animations, responsive PHP: POO MVC - LARAVEL-SYMFONY - WORDPRESS

Javascript: Tapescript, OOP, NodeJS, JQuery, Angular

Apis Rest, React with socket io (JS), Socialite for access with social networks

Postgress, SQL Server, MySQL, Oracle databases - Non-relational MongoDB

Various formats such as XML, JSON, csv, IFC

C # with Asp.net emtity MVC - Autodesk forge with C # Asp.Net (autodesk libraries to view academic revit plans with OAuth2 authentication)

Using chatbots with dialogflow - python

Mobile programming ios android Kotlin

Process automation with UiPath (RPA): (handling of pdf ocr files, excel, word, etc, automation of sending (text, html) and reception of emails, files, filling of web forms, web scraping, automations in general)

Web scraping with python, obtaining HTML information with XPATH (request libraries, beatifulsoap4, selenium, scrapy, etc)

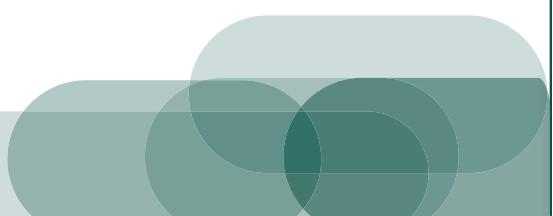

QA tester automation with selenium python

Front-end / back-end real-time web applications, real-time maps and location

Using Github to upload versioned repositories

I adapt quickly to any programming language, it is a subject that has always interested me and I am constantly studying and improving.

I manage quite well in information management and programming, it is a subject that is a bit easy for me to understand.

Quito, 29 de agosto de 2019

* Las aportaciones no corresponden a imposiciones, las cuales son consideradas para la concesión de prestaciones; esta información podría variar debido a movimientos realizados por el Empleador, por depuración de aportes o por subsidios.

* En el resumen de aportaciones, si el total real de días es mayor o igual a 15, el Sistema de Pensiones le considera como una aportación de mes completo (Resolución C.D. 100).

* En la modalidad de afiliación del Trabajo No remunerado del Hogar, se considerará las aportaciones una vez que se hayan cancelado el aporte personal y lo correspondiente por subsidio del estado.

CERTIFICADO

Yo, Ing. Humberto Péndola Péndola, Certifico que el **Ing. Christian Felipe Torres López**, portador de la C.I. 090357657-5, prestó sus servicios como Ing. en Programación y Control, para la "Construcción de la Fase I del Intercambiador de Tráfico en la Av. de las América y calle 15N NE (Benjamín Carrión), en la Autopista Santa Narcisa de Jesús Martillo Morán, en la ciudad de Guayaquil, Parroquia Tarqui".

El **Ing. Christian Felipe Torres**, colaboró en éste Proyecto desde Enero de 2011 hasta Diciembre 31 de 2012, demostrando capacidad y honorabilidad en el desempeño de sus labores.

Atentamente,
Asociación de Consultoras AET-CVA

Ing. Humberto Péndola Péndola
Director de Fiscalización

Guayaquil, Julio 31 de 2013

Guayaquil, 07 de Agosto de 2013

CERTIFICADO

Por medio de la presente certifico que el **Sr. Felipe Torres López** con C.I. # 010357657-5 prestó sus servicios profesionales para Asociación Vial Quevedo desde 01 de Mayo de 2012 al 31 de Agosto del 2012 en calidad de encargado de Programación y Control para " **FISCALIZACIÓN DE LA CONSTRUCCIÓN DEL ANILLO VIAL DE QUEVEDO, DE 25.66 KM DE LONGITUD, PROVINCIA DE LOS RÍOS**, suscrito con el Ministerio de Transporte de obras Públicas.

Certifico que toda la información aquí consignada corresponde a la verdad.

Atentamente,

Ing. Carlos Vera Grunauer
Administrador del Proyecto

CERTIFICADO DE TRABAJO

El Ing. Carlos Ernesto Vera Grunauer, Identificado con C.I. 090887468-8
Gerente Administrativo de CONSULTORA VERA & ASOCIADOS C. LTDA.

CERTIFICA:

Que, el Sr. Felipe Torres López, identificado con C.I. 010357657-5, laboró en nuestra empresa como encargado de Programación y Control del Proyecto La Troncal 2, desde el 04/07/2011 a la fecha 30/04/2012.

Se expide la presente a solicitud del interesado, para los fines que crea conveniente.

Ing. Carlos Vera Grunauer
Gerente Administrativo
